Year 3 Summer 3.1

Enquiry question :

What did the Romans do for us?

Mathematics:

Money

- Counting and converting both pence and pounds.
- Adding and subtracting money and giving change.

Statistics

- Exploring and creating different pictograms, bar charts and tables.

Length and Perimeter

- Measuring and comparing lengths in centimetre (cm) and metres (m).
- Adding and subtracting lengths.
- Measuring and calculating perimeter.

English:

Writing—During our Literacy lessons, we will be creating non-chronological reports and newspaper reports based on our class non-fiction text. We will be researching information about the Romans and using formal language, quotes, captions, headlines, past tense reporting, third person in our writing.

Reading-The children will be retrieving and recording information and predicting using our class text.

D.T:

Roman Bread Making

We will be learning about Roman bread making and how the Roman's made their bread. We will then design a loaf of bread for the Roman Emperor that will fulfil what he loves most about his bread. We will design, make and evaluate our bread and change our bread to suit the Emperor.

R.E./P.S.H.E:

R.E

- Being open honest and truthful.
- Christianity and Islam.

PSHE

- Making healthy choices and knowing how to look after ourselves.

History

We will be learning about the Romans. We will develop our understanding of chronology about Roman history from the earliest days to the fall of the Roman empire. We will look at and compare the lives of Roman people and how Roman history impacted England as we know now.

P.E:

Cricket- Key skills to include ball control, bat control, hitting, catching and throwing.

Athletics- Key skills to include sprinting, relay running, power, speed, endurance
